First	Aid	<u>Measures</u>

General Advice	Provide this SDS to medical personnel for treatment.
Eye Contact	Rinse thoroughly with plenty of water for several minutes, lifting lower and upper eyelids. Get medical attention if irritation persists.
Skin Contact	Remove contaminated clothing. Wash off immediately with plenty of soap and water. Get medical attention if irritation persists.
Inhalation	Remove to fresh air. If irritation develops or breathing is difficult, get medical attention.
Ingestion	Rinse mouth with water. Do not induce vomiting unless directed by medical personnel. Get medical attention.

#### Most important symptoms and effects

Symptoms Contact with eyes may cause slight transient irritation. Prolonged or repeated contact with skin may cause irritation. If significant vapors or mists are inhaled, exposure may result in irritation to the upper respiratory system. Harmful if swallowed. Ingestion of ethylene glycol may cause abdominal pain, nausea, vomiting and central nervous system effects. Severe kidney injury may occur. Suspected of causing reproductive effects based on animal data.

#### Indication of any immediate medical attention and special treatment needed

No immediate medical attention is required.

#### Notes to Physician

Treat symptomatically.
